ACHIEVEMENT UNLOCKED!

I do not recommend this game. The idea for this game was great, the features promised was nice, but in the end the game didn't hold up to what it was offering. The play value was short, and honestly, you just lose your interest after awhile. If you like music games I would rather recommend Audiosurf.. The DLC is pretty good and I'm very happy with it. Well worth the price (especially the \$10 sale price). I think the reviews bashing Bohemia for not including Apex in this are frankly ridiculous and immature. First off, the bundle is much cheaper than Apex (even tho Apex is on sale) and you can't possibly expect to get a \$35 EXPANSION in a DLC BUNDLE (note this is NOT a season pass and clearly states what it includes in its entirety). "Nice cash grab promising Apex then removing it on time of release." (an actual review) is complete BS. Nowhere did Bohemia EVER promise Apex nor did they remove its inclusion in the DLC bundle. Right here (here:

<https://www.bistudio.com/blog/roadmap-14-15-dlc-strategy-blog>) on Bohemia's website they clearly state every detail of all the separately sold Arma 3 content. Here's an easy to find excerpt from the link: "The DLC Bundle is the best value for Arma 3 fans who want to get the most out of the platform. It contains the 3 DLC packages: Karts, Helicopters and Marksman. The bundle does not include the Expansion.". There we have it. Case closed. Stop blaming Bohemia for your inability to read.. The eye spectacles, my eyes, my eyes!

[Retro you are trge 1ne. A fascinating insight into the inner workings of a game development studio. You really see the ups and downs that come with creating a game and you even start to emphasise with the protagonists \(i.e. the developers and designers\).](#)

[Well-worth watching!. Hopefully your next game is a bit longer. Looking forward to solving the case of the invisible wizard..](#)

[all they had to do was take ANNO 2075's format and add updated graphics and space, then leave everything else alone.....apparently that was too hard.. If you enjoy Talisman but don't want to wait during the other players turn. https://youtu.be/QIJRXafZnxA. I played this from start until finish, and I can't recommend it. The pacing is slow, preparing food and how it tastes covers basically 90% of the dialog. The main character is so boring and over powered that not once do you even feel mildly concerned for his or anyone's safety, which creates such a boring tone for what could have been epic battle scenes.](#)

[If you like reading for 16 hours about what dish to prepare and following around an insecure female protagonist who gets embarrassed at the drop of a hat, I guess this is for you, otherwise avoid this.](#)

nice stabbing simulator. its simple, its fun, it triggers nostalgia, and it doesnt hurt your wallet.. love it~ 10/10. CRASH GAME 1ST MISSION AND THIS HAPPEN.. IVE TRIED 3X STILL THAT SCENE IS CRASHING AGAIN AND AGAIN... CAN I HAVE A REFUND PLS !. Definitey wait for a good sale to get this game on.

It's a ton of fun! There isn't a lot of replayability though.

The developers aren't supporting this game anymore.. This is a solid puzzle game. My only complaint is the difficulty. Later levels are unbeatable with certain power ups.

If you like simple match-3 puzzle games, I recommend buying this.. If you like hidden object games then you will like this. That been said it is rather short, story is average and as others have stated... not scary. Still if you like this type of game you will enjoy, overall looks nice and a good way to chill for a couple of hours. (My play time was about 3 hours but this was only due to having to go AFK for about an hour).

I would recommed this game just try catch it on sale :). Literally everyone has forgotten about this DLC because the moron devs had to make it so that you had to launch the DLC in an entirely different program instead of just letting you launch the base game and being able to play from there. Also they made more unique classes but had no idea how to balance them so everyone got put off instantly. Big shame because I love the idea of playing pirates vs. power ranger samurais (imagine For Honor but not made by Ubisoft).. This is a very funny and entertaining game in my book. I can certainly recommend this game to anyone who wants to have a laugh.
